

Global Innovation Initiative

The International Joint Studio and Seminar

Urban Green Infrastructure:

An Interactive Web of Water, Space & Life

Final Presentation Seminar
Thursday, 21st January 2016
10:00-16:00 in Auditorium K.301
FTUI Depok

Six different working groups of students will explore their recommendations on three different locations of lakes (setu) and streams in:

Setu Babakan, a cultural community on the Setu Srengseng Sawah lake on the southern part of Jakarta near Depok

Upstream rivers to UI Campus lakes, specifically the southern and eastern inlets that are impacted by traces of trash and settlements

Setu Rawa Besar in Depok, which is impacted by commercial activity and development sprawl

Exhibition

21st-28th January 2016
in Lobby of Engineering Center

FTUI Depok

Setu Babakan

UI Campus Lakes

Setu Rawa Besar
